After the bites from dinosaurs I
Can be a giant

How so?

Because
Criminals
And so on

What about
The police

Don't talk
Like a stupid
They protect us
From evilness!!!

Sob

I like chocolate
And girls but
I am poor
And alone

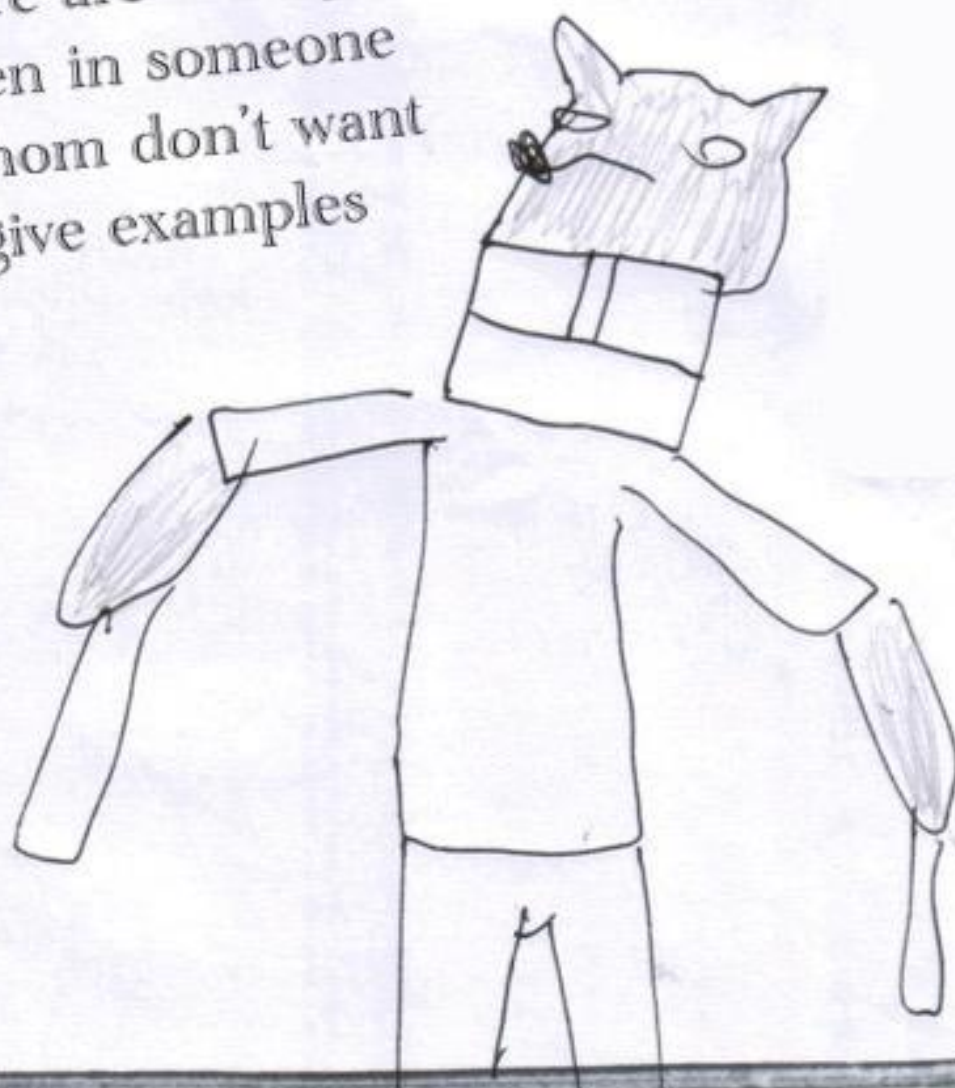

This is actual society

Oh, poor dick
You can't save
The world

There are examples
even in someone
Whom don't want
give examples

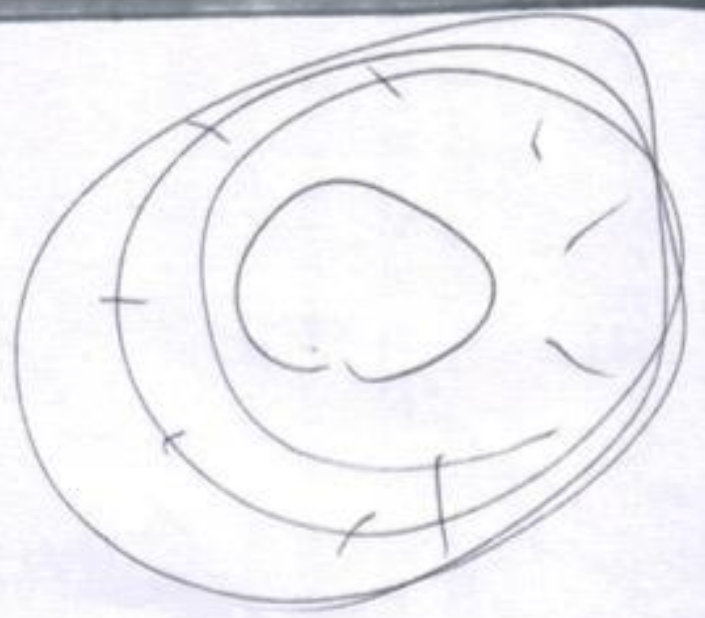

None wants me!
And now we have to
Do this scene again

Stop you!!!

film in action

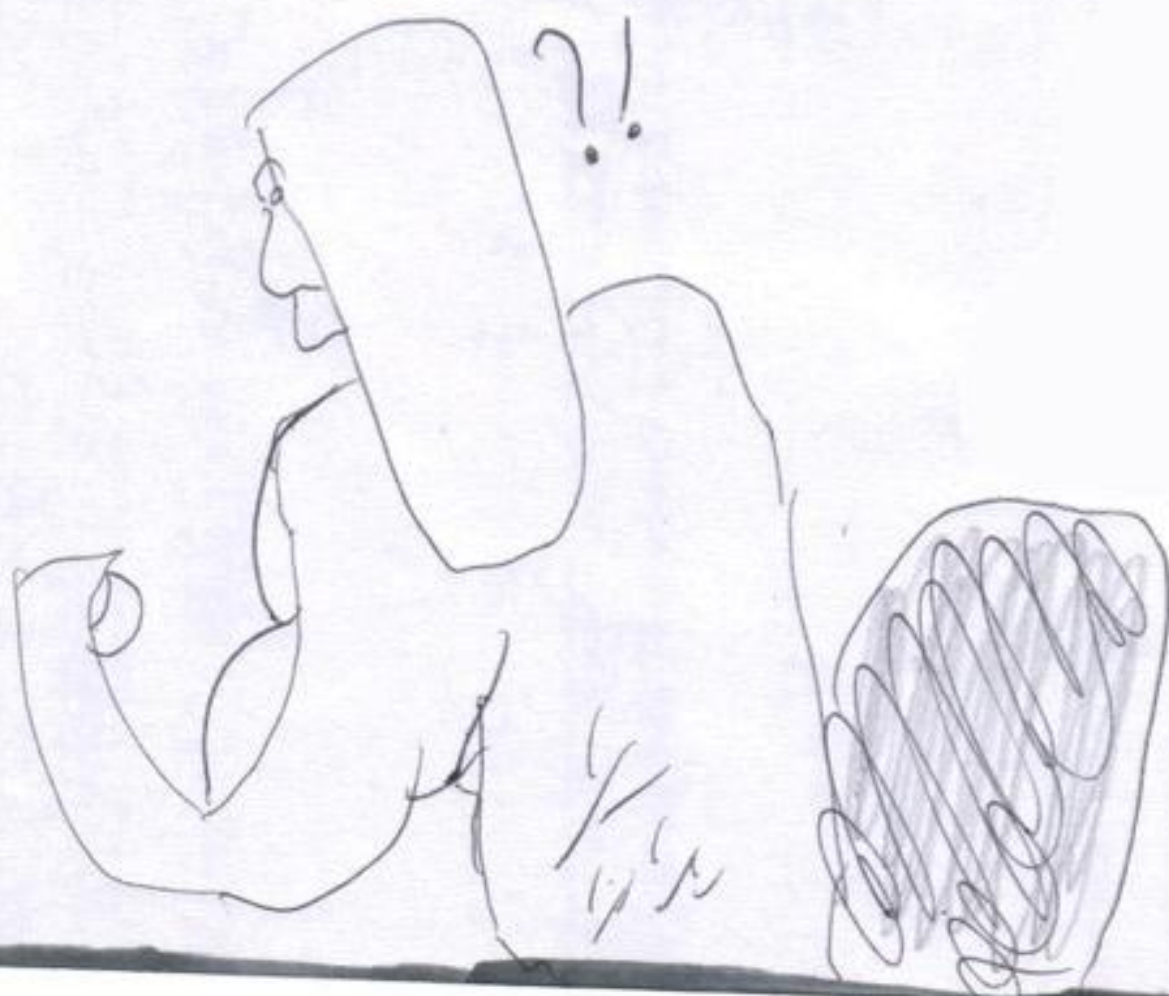

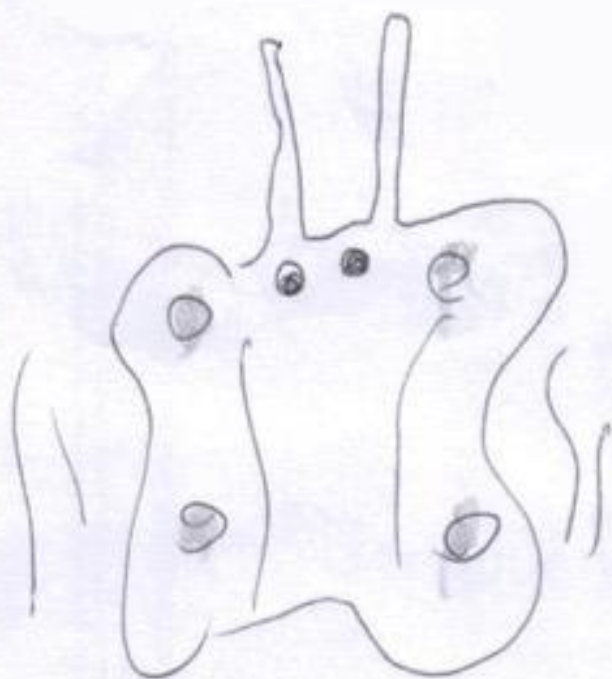

And there is no need of dictators

I will hit him

SBAMI!

SCANNING
COMPLETED.

People relax stress:
The new modern religion
Where the psycho-health
Is the center of the entire
Universe of workers
And free time.

Because believe in God
Was enough
And we have to
Shame what others do
In name of benefits and
Respect of plurality.

The confessions are
Psychological visits
And patients are
New sinners

AAAH...

Finally

You can't change the world
Accept it.
